

8. Participation in International Activities

The Republic of China is currently a full member of the Asian Development Bank (ADB), the Central American Bank for Economic Integration (CABEI), and the Conference of Governors of South East Asian Central Banks (SEACEN). The Bank attends the annual meetings, provides training courses, and hosts conferences so as to strengthen cooperation and relations with other member countries. In addition, the Bank also plays an active and extensive role in the Inter-American Development Bank (IDB), the European Bank for Reconstruction and Development (EBRD), and the Bank for International Settlements (BIS), among other international financial organizations.

In 2004, as a part of SEACEN activities, the Bank held a 4-day "Central Bank Internal Audit Workshop." There were 30 participants from 15 central banks. Lecturers came from the BIS, the Bank of Japan and other sources. The subject for the workshop included internal audit, corporate governance, risk management, application of information technology, legal impact, outsourcing of internal audit, and best practice of internal audit.
